SEAT BELT AWARENESS MONTH

October has been designated as "Seat Belt Awareness Month" in Tuscaloosa County. Students and staff from Shelton State are joining forces with people from Fredd State, The University of Alabama and Stillman College to promote seat belt safety and awareness.

More than 90% of automobile fatalities in Alabama were not using a seat belt. Studies show that a typical driver in Alabama has a 32 percent chance of being killed or injured in an auto accident during his/her lifetime!

The Shelton State Ambassadors are trying to reach a goal of seventy percent. On October 3rd, a poll was conducted at Shelton as faculty, staff and students entered the school parking lot. Only sixtyone percent of the drivers were wearing seat belts.

It's the law! Don't be caught with your seat belt unbuckled!!!
